Capistrano Oak

## Real Hardwood Floors for Real Life™

Perfect for new homeowners or those looking to redesign on a budget, Cali GeoWood puts real hardwood floors within reach. Each plank features a beauty layer of sustainably farmed bamboo or lumber from Lacey Act Compliant managed forests over GeoCore® -- a strengthening limestone composite foundation. This stone core makes planks more water resistant, faster to install, and better protected against indentation. GeoWood's revolutionary construction translates to 50% better dimensional stability, meaning less expansion and contraction even in high-moisture environments like kitchens, bathrooms, and basements.

## The Water Resistant Wood Floor

AquaDefy technology ensures diehard moisture protection. Finally, a wood floor that can reach every room in the house, both above and below grade.

## GeoCore: Bad to the Bone

This backbone of limestone composite resists indentation and delivers 50% better dimensional stability (less expansion and contraction), meaning no transition pieces are required.

## A Truly DIY Hardwood Installation

Simple-to-cut planks with a precise click-lock milling system make installing GeoWood easy for the first-timer or veteran contractor alike.

## Made to Withstand It All

Shielded by an aluminum oxide scratch resistant finish, GeoWood planks are better prepared to face the wear and tear of everyday life.

## Accessories

<b>Construction</b>	GeoCore®
<b>Plank Length</b>	Oak: Random Length up to 74-13/16" Bamboo: 36-1/4" Maple: Random Length up to 74-13/16"
<b>Plank Width</b>	Oak: 7-15/32" Bamboo: 5-19/32" Maple: 7-1/2"
<b>Plank Thickness</b>	Oak: 9mm Bamboo: 7mm Maple: 9mm
<b>Sqft./Box</b>	Oak: 23.31 sqft. Bamboo: 14.06 sqft. Maple: 23.31 sqft.
<b>Milling</b>	Click
<b>Installation Method</b>	Floated or Glue Down
<b>Finish</b>	Aluminum Oxide
<b>Residential Warranty</b>	50 Year
<b>Commercial Warranty</b>	15 Year Light Commercial
<b>Resin</b>	Low Emitting VOC & Prop 65 Compliant (Test Results Available Upon Request)
<b>Radiant Heat Compatible</b>	Yes (up to 85°F)
<b>LEED Points</b>	EQC4.3
<b>Fire Rating</b>	Oak: <i>Testing in Progress</i> Bamboo: 0.48 W/cm2 (Class 1) Maple: <i>Testing in Progress</i>
<b>Certification</b>	FloorScore® Certified
